

A five day Lab based Industry Oriented Training Program on "Data Science with Python" was organized by B. P. Poddar Institute of Management & Technology at the VIP road campus, on October 13-17, 2017 for the final year campus aspirants. The program was conducted by one of the leading Analytics Training Organizations having PAN India presence.

BPPIMTians are ALWAYS PREPARED To acquire new skills and refine their abilities. They learn and grow by challenging themselves.
