

EPILOGUE 2020

Department of Electrical Engineering

“Every new beginning comes from some other beginning’s end.” We the Department of Electrical Engineering had organized EPILOGUE 2020 on 24th August 6:00 pm to congratulate our dear students for their graduation and to bid adieu as they are going to start a new journey. Students shared their 4 years’ experience in short and all the faculty members shared their thoughts with the students. It was a very nice experience for us all to meet with them. Our Training and placement Head Mr. Debashis Bakshi was present in the session.
