

B. P. Poddar Institute of Management & Technology
Department of Electrical Engineering

Report on the lecture organised by the Energy Systems Research Group on 05.03.2022
Academic Year: 2021-2022

“Anyone who stops learning is old...Anyone who keeps learning stays young. The greatest thing in life is to keep your mind young. “ - Henry Ford

The secret behind remaining relevant and responsive to the demands of a fast evolving global scenario, be it in the technological arena, professional ethics or work environment, undeniably, is a young and agile mind.

B.P.Poddar Institute of Management and Technology, Kolkata, since inception, has been appreciating the value of an academic ambience which thrives on a culture of lifelong learning. Workshops, Symposiums and Webinars, the common platforms for opening windows and broadening horizons of knowledge are an integral part of the intellectual ecosystem of the Institute.

Saturday, the 5th of March 2022, was one such day when the faculty and students got absorbed in an enlightening delivery on “LED Lighting System – The Opportunity and Challenges”, by Prof. Biswanath Roy, Professor of The Department of Electrical Engineering, Jadavpur University, Kolkata. The virtual session (on Zoom), organized by the Energy Systems Research Group was inaugurated by Prof(Dr.) B.N. Chatterjee, esteemed Professor Emeritus, Department of Computer Science and Engineering, BPPIMT. The one and half hour deliberation that followed was informative and invigorating, inducing interactions amongst the speaker and participants. The session, compered by Ms. Anushree Roy, Assistant Professor, Department of Electrical Engineering, BPPIMT was concluded by a Vote of Thanks by Dr. Sutapa Mukherjee, Coordinator of the Research Group and subsequent felicitation of the honourable speaker. The participants, in their feedback note, expressed how benefitted they felt with the engrossing talk and wished they could be part of more of the like in future.
